## COMPANY OVERVIEW

Binary-Code, LLC provides specialized IT professionals and services to federal and state agencies, prime contractors and the local business community. We design, secure and operate technology, combining cloud, AI and data analytics with disciplined program management, so clients get dependable systems and measurable results.

## CORE COMPETENCIES

- Cloud & cybersecurity (NIST, FISMA)
- AI, machine learning & automation
- Program & portfolio management (CPM)
- Governance, risk & compliance
- End-to-end acquisition support
- SLA & KPI management
- Data management & predictive analytics
- Enterprise IT service desk & support
- Software, web & CRM/ERP development
- Enterprise architecture & modernization
- Network engineering & infrastructure
- IT consulting & strategic sourcing
- Full IT life-cycle & release management
- IT staffing & recruiting

## DIFFERENTIATORS

- Practices aligned with the Technology Business Management (TBM) framework and FITARA
- Agile delivery with security and quality built into every release
- Certified staff: PMP, PMI-CPMAI, Lean Six Sigma Black Belt and ITIL v4
- Woman-owned small business that strengthens prime contractors' small-business goals
- One accountable partner from requirements through ongoing support

## TEAM CERTIFICATIONS

PMI-PMP · PMI-CPMAI · Lean Six Sigma Black Belt (CLSSBB) · ITIL v4 — held by founder Faterah Sykes.
